## FEATHER SHUTTLECOCK

### GOSEN'S METICULOUSNESS IS SEEN IN SHUTTLECOCKS.

Not only smashes which exceed 350 kilometers per hour but also hairpin shots requiring fine control of not more than several centimeters, the characteristics of badminton play results from the use of shuttlecocks. Gosen select the best raw feathers from the highest quality geese, raised for more than 6 months after incubation in their original habitat in China. Sixteen high quality cut stem feathers are formed by an ultra precision flocking machine. Then, high quality cork is fitted to complete shuttlecocks of the highest quality and durability.

Appropriate speed of Gosen brand shuttlecock

Speed	75	76	77
Temperature	~ 33°C	32~28°C	27~23°C
Speed	78	79	80
Temperature	22~18°C	17~13°C	12°C ~

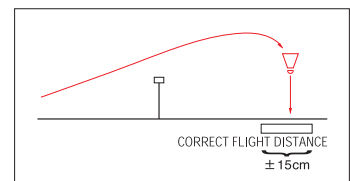

### JUDGING THE QUALITY OF SHUTTLECOCKS.

#### 1 Stability of trajectory :

Quality of balance is checked by non-deviation of trajectory and the stability of flight.

#### 2 Accuracy of appropriate distance :

The rate of dropping within a suitable distance is judged by hitting shuttlecock under a fixed temperature, angle and speed. (Those dropping within a drop point tolerance of 15cm are adopted.)

#### 3 Durability of the original feather :

Under a set simulation condition closely resembling actual games, damage to the stem part and breakage, etc. are judged. Changes in standard trajectory, etc. are checked.

#### 4 Hitting feeling of special cork :

Feeling of hitting is checked by actual hitting.

#### GF-50 GOSEN FEATHER 50 GREEN

MADE IN CHINA

Popular model for local tournament and games.

■ SPEED : 76 / 77 / 78 / 79

#### GF-70 GOSEN FEATHER 70 WHITE

MADE IN CHINA

Well-balanced shuttlecock for practice.

■ SPEED : 76 / 77 / 78 / 79

#### GF-90 GOSEN FEATHER 90 BLUE

MADE IN CHINA

Durability and cost performance for practice use.

#### GF-10 GOSEN FEATHER 10 GOLD

MADE IN CHINA

Gosen top grade feather shuttlecock.

■ SPEED : 76 / 77 / 78 / 79

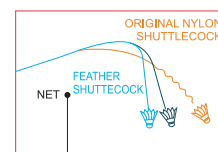

Approved by BADMINTON WORLD FEDERATION

## NYLON SHUTTLE COCK

### TO GET CLOSE TO THE PERFORMANCE OF FEATHER SHUTTLECOCK

Strengthen the nylon feather parts to get similar flying course of feather shuttlecock.

SLOW	MIDDLE
SHORT DISTANCE	MIDDLE DISTANCE
15 - 35°C	UNDER 15°C

#### GN-505H NYLON SHUTTLECOCK GN-505H

MADE IN TAIWAN

■ COLOR : WHITE / YELLOW  
 ■ SPEED : SLOW / MIDDLE  
 ■ PACKAGE : 6 PCS/TUBE
